

JIRCAS Workshop Papers

No. 2 (March 1994)

Contents

• Development of Techniques for the Utilization of Environmental Resources and Perspective of Promotion of Research in the Marginal Land Area

1. Technology for the Utilization of Environmental Resources in Marginal Land Area

Michio ARARAGI 1

2. Degraded Forest Land in the Tropics and Agroforestry

—Analysis of light conditions under a canopy of fast-growing trees—

Kiyoshi NAKASHIMA 4

Masahiro SAITO 17

3. Mechanism of Rock-Weathering in Tropical Dry Areas

Tamao HATTA 19

Yukinori MATSUKURA 31

4. Agro-meteorological Improvement in Arid Lands

Taichi MAKI 33

Zenbe UCHISHIMA 44

5. Planning for Rangeland Conservation in the Dry Areas using Remote Sensing

Shigeru TAKAHATA 46

Ichiroku HAYASHI 54

• Recent More on International Tropical Forest Research

1. International Tropical Forest Research Cooperation

—Japan pledges financial and technical Contribution—

Satohiko SASAKI 55

2. Ecological Trials for Regeneration of Tropical Forests

Yokohama National University Akira MIYAWAKI 62

3. Species Richness and Dynamics of the Tropical Rain Forest, an Example of West Sumatra.

Mitsuru HOTTA 64
